Partial thromboplastin time (PTT) and activated partial thromboplastin time (aPTT) are used to test for the same functions; however, in aPTT, an activator is added that speeds up the clotting time and results in a narrower reference range. The aPTT is considered a more sensitive version of the PTT and is used to monitor the patient's response...

Use the Advanced Google Search Page with filters like subject, publisher, language, publication date, ISBN and ISSN numbers (you aren't going to remember these two).. Experiment with keywords and wildcard operators to grab a clue. Even if you do not find the book you're looking for, you might come across a reference which could then lead you to the answer.
