In computer science, the term automatic programming identifies a type of computer programming in which some mechanism generates a computer program to allow human programmers to write the code at a higher abstraction level.. There has been little agreement on the precise definition of automatic programming, mostly because its meaning has changed over time.

Em biologia, transdução de sinal refere-se a qualquer processo através do qual uma célula converte um tipo de sinal ou estímulo em outro. A maioria dos processos de transdução de sinal envolvem sequências ordenadas (chamadas também de cascatas) de reacções bioquímicas dentro da célula, que são levadas a cabo por enzimas activadas por mensageiros secundários, resultando numa via ...
