In finance, an option is a contract which gives the buyer (the owner or holder of the option) the right, but not the obligation, to buy or sell an underlying asset or instrument at a specified strike price prior to or on a specified date, depending on the form of the option. The strike price may be set by reference to the spot price (market price) of the underlying security or commodity on the ...

One focus area prevalent in Trompenaars (1996) is the link between culture and internal versus external Locus of Control. In the paper by Smith, Trompenaars, and Dugan (1995), they used a scale developed by Rotter (1966) to measure the extent to which people had an internal Locus of Control, which is typical of successful Americans, as compared to an external locus of control, which is ...

The stages From the Big Bang to Integral I found simple symbolic scenes to express each level so that when we look at them we can get an immediate 'feel' of each stage in their respective quadrants. For instance, amber upper left is someone bathed in the shining light of an almighty god; orange upper right is a marathon runner reaching for high performance; lower right green is a new city ...
