Kristy. Hi Abby! Thanks for the article! I appreciate that you dig into the research and then translate it into everyday language ☺☺ I actually have had the IgG test done and the ND explained that when lots of foods are flagged it means there's something wrong with the gut, namely leaky gut, NOT that the person is permanently intolerant to all of those foods.

In a kind of spooky experiment, scientists at the Max Planck Institute for Human Cognitive and Brain Sciences reveal that our decisions are made seconds before we become aware of them. In the study, participants could freely decide if they wanted to press a button with their right or left hand. The only condition was that they had to remember when they made the decision to either use their ...
