Con Edison Solutions is helping the U.S. Government, the nation's largest energy consumer, significantly improve its energy management in order to achieve the following goals:

Federal Government | Con Edison Solutions

A variable gauge system allows railway vehicles in a train to travel across a break of gauge caused by two railway networks with differing track gauges.. For through-operation, a train must be equipped with special trucks holding variable gauge wheelsets containing a variable gauge axle (VGA). The gauge is altered by driving the train through a gauge changer or gauge changing facility.
