Choose the level of work that best suits each student's needs. For example, teachers can select the appropriate Maths Mate level. As progress is so easily monitored in the Maths Mate series, students can move from one level to another without any need to purchase a different level, or for the student to feel locked into a particular book.

For Wave optics, I read it from the NCERT textbook line by line and to tell you, YDSE(Young's Double Slit Experiment) is the most important thing in this chapter. If you had only one day in hand for it, YDSE, Huygens law and Brewster's angle would be the only thing you would need to do from this chapter. With this, Communication systems and Electronic Devices (Semiconductors) were only left.
