pathshala - LNMU

Social science is, in its broadest sense, the study of society and the manner in which people behave and influence the world around us. Social science tells us about the world beyond our immediate experience, and can help explain how our own society works - from the causes of unemployment or what helps economic growth, to how and why people vote, or what makes people happy.

What is social science? - Economic and Social Research Council

Ways of applying ICT (Information and Communication Technology) in the teaching and learning of Social Science . Background work such as planning, using computers and other technological equipment in the classroom is discussed. The merits of using computer, both for the teachers and for the students are outlined.

Use of Information Technology in teaching social science ...
