Cartadis, Solutions pour le paiement electronique et le ...

The Cartadis TC4N is a rugged and reliable pay-per-use copy terminal ideally suited for schools, libraries or other institutions where prepaid or account based copying is desired. The TC4N, when sold alongside a card dispenser or card reloader, supports prepaid copying with reloadable or disposable magnetic cards where users access a self-serve kiosk to purchase their cards or load credit.

We will present our reporting software (WashAdmin) for Carwash activity in service stations. The terminal TL14 dedicated

Documentations - Cartadis

The Cartadis TC4N features three functioning modes using Cartadis magnetic cards on three types of installation : - copier access control, - keyboard manual debit of an amount, - timer mode control of an other equipment. Setting one of above modes is carried out by means of the "mode" parameter accessible from administration menu.
