Paper marbling is a method of aqueous surface design, which can produce patterns similar to smooth marble or other kinds of stone. The patterns are the result of color floated on either plain water or a viscous solution known as size, and then carefully transferred to an absorbent surface, such as paper or fabric. Through several centuries, people have applied marbled materials to a variety of ...

Though most teachers aspire to make critical thinking a primary objective of their instruction, most also do not realize that, to develop as thinkers, students must pass through stages of development in critical thinking. That is, most teachers are unaware of the levels of intellectual development ...

The term of learning styles has been used in education to explain individual differences in the ways students approach learning (Kozhevnikov, 2007). It is assumed that instruction based in learning styles theory produces better achievement (Sternberg, Grigorenko, & Zhang, 2008). Despite considerable interest in learning styles there are a number of critical problems with the theory and the ...

FB's popularity raises questions about the website's impact on college student life (Barratt, Hendrickson, Stephens, & Torres, 2005). After expanding FB use to individuals outside the college and university system, the age group experiencing the most growth was 25-34 year-olds, with an increase of 181%, and the 35 and older group increased 98% (Lipsman, 2007a).
